AZURE INFRASTRUCTURE OPTIMIZATION & READINESS ASSESSMENT

OPTIMIZE TODAY. BUILD FOR TOMORROW.

ABOUT US

Oakwood is a Microsoft Solutions Partner helping organizations modernize and optimize their infrastructure, improve operational efficiency, and prepare for what's next in cloud and AI. With deep expertise across Azure infrastructure, hybrid environments, and data-driven modernization, Oakwood helps clients move from reactive management to proactive optimization.

Our Azure Infrastructure Optimization & Readiness Assessment gives organizations the insight and direction needed to maximize performance, control costs, and build a secure, scalable foundation for future workloads — including AI and high-performance computing (HPC) — through a clear, actionable roadmap aligned to business priorities.

THE RISK OF DOING NOTHING

- Overspending on oversized or underutilized infrastructure
- Security gaps and compliance risks left unaddressed
- Limited ability to scale for AI, analytics, or HPC workloads
- Technical debt slowing modernization and innovation
- Falling behind competitors already optimizing for cloud

DELIVERABLES

- Comprehensive Infrastructure Assessment Report
- Optimization & Modernization Roadmap
- Cost & Performance Analysis Summary
- Security & Governance Findings and Recommendations
- Executive Readout Deck with next steps

MORE THAN AN ASSESSMENT

- **Current-State Review:** Evaluate compute, storage, and networking across on-prem and cloud environments.
- **Optimization Analysis:** Identify performance improvements and cost-saving opportunities.
- **Modernization & Migration Roadmap:** Develop a prioritized plan to optimize and modernize your environment.
- **Security, Governance & Compliance Review:** Address risks, gaps, and controls for safe operation.
- **AI & HPC Readiness Evaluation:** Assess readiness for advanced workloads requiring scalable compute.

WHY CHOOSE OAKWOOD

- Certified Microsoft Solutions Partner with deep Azure expertise across infrastructure, hybrid cloud, and AI
- Proven assessment framework using Oakwood's CASE (Cloud Adoption Strategy Evaluator)
- Experience delivering modernization and optimization projects for mid-market and enterprise clients
- Ability to leverage Microsoft funding programs to support qualified assessments
- Trusted by Microsoft field teams and customers as a preferred Azure migration and optimization partner
- End-to-end expertise that bridges infrastructure, security, and readiness for AI and HPC workloads
